Areas of Special Interest

Individual, social and contextual influences on the development of psychopathology and substance use from childhood through adulthood. Intergenerational influences on risk and substance use. Life-span antisocial and associated behaviors; including early childhood risk, child and adolescent development, delinquent and criminal behavior, health-risking sexual behavior, use of alcohol and other substances, violence, depression, and fatherhood. Adjustment of couples, including interaction patterns and aggression, stress, and effects of relationship factors on health. Additional interests include longitudinal developmental modeling and study design, and observational assessment techniques.

Professional Experience

2004 - present International Associate to the Oxford Centre for Research into Parenting and Children, University of Oxford.

2001-present Senior Scientist, Oregon Social Learning Center, Eugene, OR

1998 - present Courtesy Research Associate appointment at the University of Oregon.

1991-present Served terms in a variety of management roles at OSLC including Management committee, Scientist Council, chair of the Human Resource Committee, Scientist Council Chair, and Associate Director.

1983-2001 Researcher, Parent Trainer, and Research Scientist, Oregon Social Learning Center, Eugene, OR

1979-1983 Research Specialist, Department of Psychology, University of Oregon, Eugene, OR
